

PRESS RELEASE

FOR IMMEDIATE RELEASE

Erasmus+ Genz4GreenDeal – 2nd Transnational Project Meeting in Belgrade, Serbia

13th December 2022

The Erasmus+ project “Generation Z for Community Development and Sustainability” (GenZ4GreenDeal), in which Projects in Motion is the Maltese partner, organised the 2nd transnational project meeting in Belgrade, Serbia on the 13th December 2022.

During the transnational project meeting all project partners presented their contributions to one of the main project results, namely the GENZ4GD online course for youth and youth workers. This training and capacity building program aims to equip them with the knowledge to get actively involved in sustainable development, and environmental protection on a local level. Through the GenZ4GD project, young people will learn how to campaign for positive environmental changes within their communities. They will acquire competencies for positive action in the field of community development and sustainability with the support of NGOs, schools and community stakeholders.

In a next step, and following the finalization of the course, the project partners will develop a dedicated Podcast with the help of experts and young people in co-creation. This podcast will provide information, skills and knowledge to develop local community actions that contribute to the sustainable development goals and community development.
